

ePayment

Make online paying easier

Give your students the ability to securely make payments over the web, while simultaneously helping to streamline campus operations and reduce costs with the Transact Payments powered by Cashnet ePayment solution.

Benefits for your staff

Reduces lines in the cashier's office by offering students secure, online payment options via credit cards, ACH, campus card, 529 plans, Masterpass, ApplePay, and foreign currency.

User emulation technology allows you to see the same application view seen by the student.

Processes transactions securely on a DSS-validated platform to ensure PCI-compliance.

Easily integrates with ERP portals, and existing student information and finance systems.

ePayment add-ons

SmartPay

Minimize the cost of processing payment transactions

International Funds Transfer (IFT)

Accept international payments via Western Union or Flywire

529 plans integration

Enable payers to make payments direction from a supported 529 account

Key features for students

- Secure, single sign-on feature to streamline payment portal access.
- Hassle-free international payments from trusted funds transfer services including Western Union Business Solutions and Flywire
- Options to setup recurring payments.
- Students remain in full control of their account with FERPA-compliant parent PINs.
- Supports GradGuard™ Tuition Insurance
