

TRANSACT

Privilege Management

Provide students easy, convenient, credential-driven access to authorized services and events; and secure your campus with a unified, comprehensive security solution designed specifically for the education community.

Stored Value

Allow students to make cashless purchases with multiple account types, online access, and integration with all types of credentials and point of sale (POS).

- Features self-service portal via mobile and online
- Add or remove funds via credit card, ACH, or IFT
- Provide threshold and activity alerts to email or mobile
- Integrate with existing POS and ERP systems

Meal Plans

Process a mix of plan types, flex accounts, and more; integrate with POS systems; and accommodate all dining locations.

- Flexible to meet changing student tastes
- Accommodates unlimited plans, menus, and dining location
- Fully-integrated with POS systems

Events

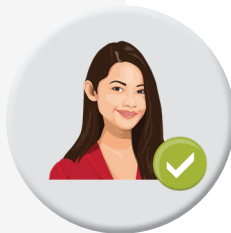

Provide students and faculty authorized access to events such as club meetings, athletics, performances, fundraisers, and more.

- Simple for students to check in via student IDs
- Cardholders' eligibility verification and attendance monitoring at events
- Verified data of student's presence at events
- Transactions for both on- and off-campus events

Attendance

Make attendance monitoring easy for faculty and provide a simple way for students to check in via their student IDs.

- Easy monitoring and minimized friction
- Integrations with existing campus technology
- Mobile or wall reader works with existing student ID credential
- Convenient web and mobile platform

Security management

Enable a safe campus with complete, easy-to-manage security solutions custom designed for the educational community.

- Comprehensive campus system integrations
- Flexible schedule management with automated access level assignment
- Intelligent automated imports
- Smart override technology

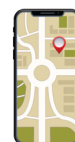

Door Access Control

Secure facilities with versatile door access solutions for existing building or new construction, providing control, flexibility, and efficiency to regulate building and door access.

Video Surveillance

Enhance campus safety through a feature-packed video surveillance system that's reliable, scalable, efficient, and effective.

Student safety app

Extend your campus security team with your students' smartphones. The LiveSafe mobile safety and risk mitigation tool allows your campus to share security and safety information.
